No. 1

Editorial

Recommended method for the determination of creatine kinase in blood modified by the inclusion of EDTA: *The Committee on Enzymes of the Scandinavian Society for Clinical Chemistry and Clinical Physiology* 1

Clinical Chemistry

Unconjugated thyroxine and triiodothyronine in urine: influence of age, sex, drugs and thyroid function: *E. Iversen & K. O. Pedersen* 7
A study of assay conditions for palmitoyl-CoA synthetase and carnitine palmitoyltransferase in homogenates of human blood platelets: *S. E. Vollsety & M. Farstad*... 15
Measurement of 25-hydroxyvitamine D in serum and its relation to sunshine, age and vitamine D intake in the Danish population: *B. Lund & O. H. Sørensen*... 23
Effect of oral zinc intake on δ-aminolaevulinic acid dehydratase in red blood cells: *M. Abdulla & S. Svensson* 31
Radioimmunoassay of human myoglobin in serum and urine: *Lars-Eric Roxin, Per Venge, Göran Friman & Roger Hällgren* 37
Gel filtration pattern of immunoreactive glucagon secreted by the isolated, perfused, porcine pancreas: *J. J. Holst, H. von Schenck & S. Lindkaer* 47
Free T_4, free T_3 and free reverse T_3 in dialysates of serum: the influence of electrolytes and pH with special reference to the physiological range: *Thomas Olsen* 53
Effects of fasting and tryptophan force-feeding on the activity of hepatic nuclear RNA polymerases in rats: *A. P. Nandi Majumdar* 61

Clinical Physiology

Role of preload and intropy in stroke volume regulation at constant heart rate: *Arnfinn Ilebekk & Fredrik Kiil* 71
Cardiac performance: optimal heart rate for maximal cardiac output: *A. Ilebekk, M. M. Miller, J. Thorvaldson & F. Kiil* 79
Exercise testing in Sweden: a survey of procedures: *J.-H. Atterhög, B. Jonsson & R. Samuelsson* 87
Circulatory homeostasis in rats after bile duct ligation: *S. Aarseth, A. Bergan & P. Aarseth*... 93

Technical Note

A computerized semi-automatic evaluation system for quantitation of electroimmunoassays: *Bertil Nilsson*... 99

No. 2

Editorial

The potential use of biochemical-physiological simulation models in clinical chemistry: *Torgny Groth & Carl-Henric de Verdier* 103

Clinical Chemistry

Metabolism in hypothermically perfused human kidney carcinoma: utilization and production of amino acids and glucose: *S. Lundstam, R. Jagenburg, O. Jonsson, K. Lundholm, A. Nilson, S. Pettersson & T. Schersten*... 111
Determination of free thyroid hormone fractions using a simple T_3-uptake test: *K. S. Olsen & C. J. Andersen* 119
Moderate and extreme haemodilution in open-heart surgery: electrolytes, urea, creatinine and osmolality: *Per Lilleaasen & Oddvar Stokke* 125
Moderate and extreme haemodilution in open-heart surgery: evaluation of haemolysis, cell damage and protein changes: *Per Lilleaasen & Oddvar Stokke* 133
Kinetics of Bilirubin oxidation with peroxidase, as applied to studies of Bilirubin-albumin binding: *R. Brodersen, W. J. Cashore, R. P. Wennberg, C. E. Ahlfors, L. F. Rasmussen & D. Shusterman* 143

Clinical Physiology

Plasma glucagon responses to insulin-induced hypoglycaemia and arginine in normal and alloxan diabetic rats: *C. Lykkelund & E. D. Lund* 151
Haemodynamic effects of treatment and withdrawal of spironolactone in essential hypertension: *D. K. Falch, R. Johansson, A. E. Ødegaard & N. Norman* 159
Effect of propranolol on total exchangeable body potassium and total exchangeable body sodium in essential hypertension: *G. Pedersen, A. Pedersen & E. B. Pedersen* 167
Leg temperature profiles with a simplied thermographic technique in the diagnosis of acute venous thromboses: *E. Nilsson, P. Sundén & S. Zetterquist* 171
Influence of β-adrenoceptor blockade on leg blood flow and lactate release in man: *A. Juhlin-Dannfelt & H. Aström* 179

Technical Note

A non-invasive method for recording His-Purkinje activity: *I. Ringquist & A. Walker*... ... 185

No. 3

Editorial

Is the relationship between the plasma concentration of inorganic phosphate and the rate of oxygen consumption of significance in regulating energy metabolism in mammals? *Leif Sestoft* 191

Clinical Chemistry

Assessment of an automated enzymatic method for ethanol determination in microsamples of saliva: *A. W. Jones* 199
Effect of SiO_2-liberated macrophage factor on protein synthesis in connective tissue *in vitro*: *M. Aalto, H. Turakainen & E. Kulonen* 205
Dissociation rate constants and fractional binding of tracer estimated for three antibody populations in unstripped and stripped antiserum: *V. Kruse* 215
Stool porphyrins determined by high pressure liquid chromatography and by fractional hydrochloric acid-ether extraction: *N. G. Christensen & I. Romslo* 223
Separation of two serum very low density lipoprotein fractions using starch block electrophoresis: *Anders G. Olsson* 229
The hepatic secretion of lecithin: cholesterol acyltransferase in rats with increased secretion of triglycerides due to ventromedial hypothalamic lesions: *G. Nordby, B.-E. Hustvedt & K. R. Norum* 235

Clinical Physiology

The effect of splanchnic block on renin production and renal haemodynamics in hypertensive patients: *L.-E. Lörelius, C. Mörlin, L. Wide, L. Wiklund & H. Åberg* 241
Effect of insulin-induced hypoglycemia on adrenergic responsiveness and forearm haemodynamics in low- and normal-high-renin hypertension: *O. L. Pedersen, N. J. Christensen & H. J. Kornerup* 247
Stimulation of heart rate by insulin: uninfluenced by β-adrenergic receptor blockade in rabbits: *F. Jacobsen & N. J. Christensen* 253
The effect of long-term arterial occlusion on energy metabolism of human quadriceps muscle: *J. Larsson & E. Hultman* 257
The effects of urinary kinin excretion of oral salt and water loads in dogs: *U. B. Olsen, M. P. Magnussen & E. Eilertsen* 265
Biphasic venous emptying from the calves in venous-occlusion plethysmography: *D. Bergqvist & T. Halböök* 271

Technical Notes

Simple immunofixation modification: a practical way to identify monoclonal protein fractions: *K. Irjala & A. Rajamäki* 277
Determination of alkaline phosphatase (EC 3.1.3.1.) on the SMAC using diethanolamine in a modified manifold: *S. I. Hansen, E. West-Nielsen & J. Lyngbye* 279
Cannulation of small lymph vessels using a tissue glue: *C.-E. Jonsson & Y. Shimizu* 283

No. 4

Editorials

Different views on the role of carbonic anhydrase 287
To what extent does acetazolamide inhibit renal bicarbonate reabsorption? *Thomas H. Maren* 289
To what extent does acetazolamide inhibit renal bicarbonate reabsorption? *Ø. Mathisen, T. Monclair, H. Holdaas & F. Kiil* 293

Clinical Physiology

Re-examination of the dose-response relationship for renal effect of acetozolamide: *Ø. Mathisen, H. Holdaas & F. Kiil* 297
Cyclic AMP, renal function and dihydrazine-stimulated renin secretion in hypertensive patients: *H. Herlitz, M. Aurell & G. Granerus* 303
Effect of long-term physical training on total red cell volume: *K. Remes* 311
Insulin and substrate exchange in the forearm during prolonged forearm work: *L. Kaijser, B. Eklund, G. Riccardi & L. A. Carlson* 321
Studies of renal urea cycle enzymes. I. Renal concentrating ability and urea enzymes in the rat during protein deprivation: *A. Aperia, O. Broberger, A. Larsson & K. Snellman* 329
Studies of renal urea cycle enzymes. II. Human renal arginase activity and location of the adaptive changes of renal arginase in the protein deprived rat: *K. Snellman, A. Aperia & O. Broberger* 337

Clinical Chemistry

Pteroylpolyglutamate hydrolase of human granulocytes. I. Partial purification and kinetic studies: *M. Jägerstad & I. Olsson* 343
Characterization of two pregnancy associated serum proteins with pregnancy specific β1-glycoprotein(PSβG)-determinants: *J. G. Westergaard, B. Teisner, J. Folkersen, P. Hindersson, P. Schultz-Larsen & S-E. Svehag* 351
Injury to human endothelial cells in culture induced by low density lipoproteins: *T. Henriksen, S. A. Evensen & B. Carlander* 361
Injury to cultured endothelial cells induced by low density lipoproteins: protection by high density lipoproteins: *T. Henriksen, A. S. Evensen & B. Carlander* 369
Identification of lipoprotein families in a variant of human plasma apolipoprotein A deficiency: *A. Gustafson, W. J. McConathy, P. Alaupovic, M. D. Curry & B. Persson* 377
Abnormal thyroid function tests in severe non-thyroidal illness: diagnosis and pathophysiologic aspects: *T. Helenius & K. Liewendahl* 389

No. 5

Editorial

Prostaglandins and cardiovascular function: some biochemical and physiological aspects: *Ake Wennmalm* 399

Clinical Physiology

Changes in plasma amino acid distribution and urine amino acids excretion during prolonged heavy exercise: *H. E. Refsum, L. R. Gjessing & S. B. Strømme* 407
Evaluation of the microsphere-method for determination of cardiac output: *Leidulf Segadal & Knut Svanes* 415
Quantitative radiocardiographic evaluation of cardiac dynamics in man at rest and during exercise: *J. Kuikka, J. Timmisjärvi & M. Tuominen* 423
A simple ballistocardiographic measure (IJ/HI amplitude ratio) in relation to electrocardiographic evidence of ischaemic heart disease: *Ulf de Faire & Töres Theorell* 435

Clinical Chemistry

Serum β_2-microglobulin liver disease: *Roger Hällgren* 441
A sensitive enzyme immunoassay for the quantitation of human IgM: *B. Dinesen & O. Saxtrup Nielsen* 449
Serum thyroxine, triiodothyronine and thyroid stimulating hormone after prolonged heavy exercise: *Harald E. Refsum & Sigmund B. Strömme* 455
Solubilization and preliminary characterization of the human ileal vitamin B_{12}-intrinsic factor receptor: *Hannele Yki-Järvinen, Ilkka Kuovonen & Ralph Gräsbeck* 461
Development of sequence specific radioimmunoassay of human parathyroid hormone and its use in the diagnosis of hyperparathyroidism: *K. M. Gautvik, V. Teig, J. F. Halvorsen, E. Arnesen, L. Myhre, P. Heimann & R. Tollman* 469
Rapid micromethod for fluorometric determination of neutral lipids on thin-layer chromatograms: *C. Lykkelund & F. Damgaard-Pedersen* 479
Plasma lipids and lipoproteins in Down's syndrome: *M. K. Salo, T. Solakivi-Jaakkola, T. Kivimäki & T. Nikkari* 485

Technical Note

Modified procedures for the determination of hexuronic acids, hexoses and proteins using the Auto Analyzer II system: *A. Hjerpe, C. A. Antonopoulos & B. Engfeldt* 491

No. 6

Clinical Chemistry

Variations in plasma protein concentrations in individuals with ulcerative colitis: analytical and biological factors: *H. Nielsen, P. H. Petersen, U. Feldt-Rasmussen & V. Binder* 495
A radioimmunosorbent technique for the assay of B- and C-types of carbonic anhydrase in human tissues: *T. Wåhlstrand, K.-G. Knuuttila & P. J. Wistrand* 503
Serum bile acids after a test meal in Crohn's disease: *K. Samuelson, C. Johansson & A. Norman* 511
The relationship between the erythrocyte sedimentation rate (ESR) and plasma proteins in clinical material and models: *I. Talstad & H. F. Haugen* 519
Rapid and sensitive radioimmunoassays for human myoglobin: *K. N. Hansen & B. Nørgaard-Pedersen* 525
Removal of endogenous ligands from a high-affinity antiserum for radioimmunoassay: *V. Kruse* 533

Clinical Physiology

Effect of Sar[1]-ala[8]-angiotensin II on blood pressure and renin in Bartter's syndrome, before and after treatment with prostaglandin synthetase inhibitors: *A. Rudin, M. Aurell, L. Hansson & G. Westberg* 543
Resynthesis of creatin phosphate in human muscle after exercise in relation to intramuscular pH and availability of oxygen: *K. Sahlin, R. C. Harris & E. Hultman* 551
Effect of myocardial ischaemia and antilipolytic agents on lipolysis and fatty acid metabolism in the *in situ* dog heart: *H. Vik-Mo, R. A. Riemersma, O. D. Mjøs & M. F. Oliver* 559
Measurements of cardiac stroke volume in various body positions in pregnancy and during Caesarean section: a comparison between thermodilution and impedance cardiography: *N. J. Secher, P. Arnsbo, L. H. Anderson & A. Thomsen* 569
Leg venous oxygen saturation in the evaluation of intra-operative blood flow during arterial reconstructive surgery. *T. Sonnenfeld, J. Nowak, R. Cronestrand, A. Åström & C. V. Euler* ... 577
A comparison between the transthoracic electrical impedance method and the direct Fick and the dye dilution methods for cardiac output measurements in man: *E. Enghoff & O. Lövheim* ... 585

No. 7

Editorial

Urine electrolytes and body weight changes in the routine monitoring of total intravenous feeding: *Hans Chr. Børresen* 591

Clinical Chemistry

Plasma HDL cholesterol and the *in vitro* esterification of cholesterol: *K. T. Stokke & S. C. Enger* 597
Metabolism in hypothermically perfused human kidney carcinoma: incorporation rate of leucine into proteins: *S. Lundstam, R. Jagenburg, O. Jonsson, H. Kleist, K. Lundholm, S. Pettersson & T. Schersten* 601
Creatine kinase isoenzyme MB assay by electrophoresis: *P. Grande, C. Christiansen & J. Næstoft* 607
Interlaboratory variation of leukocyte differential counts: results from the Finnish proficiency testing programme in haematological morphology, 1974–1977: *A. Rajamäki* 613
Quantitation of γ-trace in human biological fluids: indications for production in the central nervous system: *H. Löfberg & A. O. Grubb* 619
High density lipoproteins, insulin secretion and coronary risk factors in latent coronary insufficiency: *S. C. Enger & J. Erikssen* 627

Clinical Physiology

Renal metabolic rate during changes in bicarbonate-dependent sodium reabsorption in the proximal tubules: *T. Monclair, Ø. Mathisen & F. Kiil* 635
Plasma acetate concentrations during canine haemorrhagic shock: *M. Kveim, R. Nesbakken & J. E. Bredesen* 645
Utilization of exogenous acetate during canine haemorrhagic shock: *M. Kveim & R. Nesbakken* 653
Acetate production and substrate availability in the dog: *M. Kveim, R. Nesbakken & J. E. Bredesen* 659
The influence of posture, Valsalva manoeuvre and coughing on portal hypertension in cirrhosis: *F. Burcharth & K. Bertheussen* 665
Histamine metabolism in severe obesity before and after jejuno-ileostomy: *G. Granerus, J. Bergmark & J. G. Kral* 671
A modified [^{125}I]fibrinogen technique for thrombus detection in the whole leg: *Carl-Gustav Olsson* 677

Technical Note

A rapid polyethylene glycol assay for gastric intrinsic factor: *Knut-Jan Andersen* 685

No. 8

Clinical Physiology

Role of cyclic AMP in glucagon-induced stimulation of hepatic glucose output in man: *V. Grill, E. Cerasi & J. Wahren* 689
Intrarenal venous and cortical catheter pressures in the dog kidney: *Y. Willassen & J. Ofstad* 697
Postglomerular vascular hydrostatic and oncotic pressures during acute saline volume expansion in normotensive man: *Y. Willassen & J. Ofstad* 707
Characterization of somatostatin release from the pancreas: the role of potassium: *K. Hermansen, S. E. Christensen & H. Ørskov* 717
Balance of net base in the rat: adaptation to and recovery from sustained hypercapnia: *A. C. Hansen, S. Wamberg, K. Engel & P. Kildeberg* 723
In vivo haemodynamic evaluation of Hall-Kaster central prosthetic heart valve: *B. K. H. Semb, A. Aasen, G. Woxholt, F. Resch, A.-M. Refsum, T. Frøysaker, S. Nitter-Hauge, K. Stadsklev & P. Lilleaasen* 731

Clinical Chemistry

EDTA effect on creatine kinase (CK) and on the SCE reagent: *W. Gerhardt, J. Waldenström & W. Gruber* 737
Effect of long-term physical training on plasma testosterone, androstenedione, luteinizing hormone and sex-hormone-binding in globulin capacity: *K. Remes, K. Kuoppasalmi & H. Adlercreutz* 743
Effect of aggregates on albumin standardization: *O. Blaabjerg & P. Hyltoft Petersen* ... 751
Erythrocyte superoxide dismutase deficiency in Fanconi's anaemia established by two independent methods of assay: *H. Joenje, R. R. Frants, F. Arwert, G. J. M. de Bruin, P. J. Kostense, J. J. P. van de Kamp, J. de Koning & A. W. Eriksson* 759
Fatty acid metabolism during hypothermic perfusion of the isolated dog kidneys: *S. Skrede & O. Slaattelid* 765
Serum T_3 and T_4 determinations during the TRH test as a complement to improved discriminatory power in suspect hyperthyroidism: *J.-G. Ljunggren, G. Kallner & G. Savidge* 773
Reference values for six enzymes in plasma from newborns and women at delivery: *S. R. Kristensen, M. Hørder & G. T. Pedersen* 777
